## 4 O'CLOCK EDITION

Ardmore, Wednesday, August 17.

### HOME NEWS WHILE AWAY.

Subscribers to the Daily Ardmoreite away during the summer may have the paper mailed regularly each day to any address at the rate of 50 cents a month. Address changed as often as desired. While out of town the Ardmoreite will be to you like a daily letter from home.

Ardmore has received her first bale of cotton for the season, the fore-runner of 30,000 which are to follow.

The United States government has issued a warning to financial institutions to be on the guard against a number of new counterfeit bills.

At Selma, Ala., three constables have been arrested charged with murder in the first degree, because they permitted a mob to take a negro prisoner from them and lynch him.

As long as the alleys in our city are used for general dumping ground where weed in a manner shield the trash from view, just so long will sickness and death prevail in Ardmore.

Parker has the support of most of the big New York newspapers. The Herald, World, Times, Journal and several smaller papers are advocating his election. The Sun and Tribune are for Roosevelt.

Secretary Shaw is in an embarrassing position. If, to get the farmer vote, he declares that the Republican party has brought wheat to a dollar a bushel, he is sure to offend the workingman who has to buy flour.

A passenger on a Frisco train between Arcadia and Parsons, Kansas, carried a basket so carefully that the conductor and the other passengers thought he must be taking a lot of eggs to market. But when he told them that it contained four sticks of dynamite they speedily sought other parts of the train.

Now that the whites of Ferdinand, Ind., are up in arms because of the appointment of a negro woman as assistant postmaster, why should not the president of the United States of America and emperor of everything he isn't president of, follow his Indiana precedent and deny the people of Ferdinand a postoffice at all? —Louisville Courier-Journal.

J. Pierpont Morgan has declared in favor of the Republican candidate. The Republican candidate is supposed by some to have offended Banker Morgan on one occasion but there are those who do not believe that the latter was ever offended. If he was, the result ended when the candidate gave to the banker the exchange on that \$40,000,000 which we sent to France.

## MISSOURI AND CONFEDERACY.

George G. Vest's death will revive the old notion that Missouri seceded in 1861. The biographer of the late senator told that he was a member of the Confederate congress, and, as he was a resident of Missouri at the time of the rebellion, it will be naturally assumed that this state went through the motions of getting out of the Union. Every few months somebody or other, in calling the roll of the states belonging to the Jeff Davis regime mentions Missouri as one of them. But they are in error.

A body calling itself the legislature of Missouri met in Neosho, in the southwestern part of the state, in the latter part of 1861, under a call by Claiborne F. Jackson, who pretended to be governor of Missouri. This body went through the form of passing an ordinance of secession, and the Richmond authorities went through the motions of admitting Missouri to the Confederacy. In this way Mr. Vest and various other persons from this state were in Richmond at one time and another between the latter end of 1861 and the final smash-up in the spring of 1865.

But here are a few points which show that Missouri was never a member of the Confederacy. The legislature which pretended to take Missouri out of the Union in the latter part of 1861 surrendered the right of determining Missouri's relations to the national government in the early days of 1861 to a convention elected by the people. That convention, by a majority of 80,000, rolled up for its Unionist members, decided overwhelmingly in favor of clinging to the Union. The state furnished troops under Lincoln's call, although Governor Claiborne F. Jackson refused to furnish any. When Jackson, in the summer of 1861, made war upon the Union the convention deposed him and appointed Gamble in his place as provisional governor of Missouri when he called the legislature in session at Neosho. That town was not the capital of the state then or ever. Neosho was selected because it could be under the protection of Sterling Price's rebel army. The Jackson legislature lacked a quorum in each branch. Its ordinances, statutes and resolutions bound nobody and counted for nothing. Missouri never belonged to the Confederacy. Mr. Vest and his associates from this section had as little right to talk for this state in Richmond as they would have had to represent Czar Alexander's empire at that city.—St. Louis Globe-Democrat.

The American money in circulation. The American money in circulation amounts, according to the latest estimate, to \$31.05 per capita, showing that Kansas must have at least three times its share. The deposits in Kansas banks amount to over \$36 per capita.—Kansas City Star.

Military experts will agree hereafter that when it comes to fighting against overwhelming numbers Russian naval captains are of the first class. Admiral Toku outnumbered the Russians from every viewpoint, but he did not outfight them. There are brave men in every clime.

Senator Fairbanks will open the campaign in Kansas, where he is known as Senator Icebanks on account of his polarian frigidity. They do say when he touches water it congeals instantly, but this may be a campaign lie. But why open the campaign in Kansas? Is the elephant wobbling in the Sunflower state?

Ardmore's first bale of cotton sold today for 15 cents a pound and a premium. Gainesville's first bale sold yesterday for 11 cents a pound and a premium. These are floating straws which indicate to the farmers of the country the difference in trading points. Ardmore cash is equal to any in the realm and her merchants sell goods as cheap as can be done in any other city.

**Dissolution Notice.**

**Cures Sciatica.**  
Rev. W. L. Riley, L. L. D., Cuba, N. Y., writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving me first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, \$1.00. Sold by W. B. Fraum.

## GEORGIA MOB

DISARM MILITIAMEN DEMAND LIVES OF FIFTEEN NEGROES.

Lynching is imminent—Mob Siege Telegraph Operator and Close His Office—Cut the Wires. Negroes Burned.

Savannah, Ga., Aug. 16.—A special from Statesboro says trouble over negroes there is imminent. Soldiers have been forcibly disarmed by the citizens. Judge Daly, who conducted the trial is on the court house steps at this hour, 1 p. m., pleading with the people for quiet. The mob is growing in number and a lynching is feared at any moment. The riot call has been sounded in this city (Savannah) for the militia to assemble.

Atlanta, Ga., Aug. 16.—The officials of the Western Union Telegraph company here have been advised by the manager of their company at Savannah that the mob at Statesboro has seized the Western Union operator there and closed up the telegraph office at Statesboro. It is impossible at this time to communicate with Statesboro by telegraph.

Fifteen negroes accused of the murder of a white family were arrested Saturday at Statesboro and in compliance of a demand for speedy justice, immediate trial was begun. Wild rumors were current yesterday that the prisoners, thirteen men and two women, had been taken from the officers and put to death, but these stories proved untrue.

An angry mob surrounded the jail all day and during the night and threats of lynching were made. Today the trouble was renewed. At this hour (2:30) there was no further news, as the telephone line from Statesboro is in the hands of the mob.

Statesboro, Ga., Aug. 16.—With clothing saturated with kerosene, withering and twisting in their agony, screaming to heaven for the mercy that the mob would not show, Paul Reed and Will Cato, negroes, two of the principals in the dastardly murder and burning of Henry Hodges and wife and three children, six miles from Statesboro, three weeks ago, were burned at the stake today.

This afternoon at 1:21 o'clock a determined mob charged upon the court house, overpowered the military guard, secured Cato and Reed, who had been found guilty after a legal trial, and sentenced to be hanged, took them two miles from Statesboro and there executed the fearful penalty.

Whatever you do, don't fail to see "The Christian" tonight.
